Symptom tracker dashboard

The user can register symptoms with a label and description

A box shows the pattern recognition part of the assignment, where it has found the most common symptom patterns among the randomly generated users from the `/fill_database` endpoint.

The screenshot shows a web browser window with a tab titled "React App" and the address bar displaying "localhost:3000". The dashboard has a light gray header with the title "Symptom Tracker" on the left and a user greeting "Welcome, MyUsername!" with a red "Logout" button on the right. The main content area is divided into three sections. The top-left section, titled "Add New Symptom", contains a form with two input fields: "Symptom Label" and "Symptom Description". Below the form is a green button labeled "Add Symptom". The top-right section, titled "Your Symptoms", displays the message "No symptoms recorded yet". The bottom section, titled "Most Common Symptom Patterns", lists three patterns in light gray boxes. Each box has a bold title and a list of symptoms. Pattern 1 is titled "Pattern 1 (Reported 3 times)" and lists "loss of smell, sore throat". Pattern 2 is titled "Pattern 2 (Reported 2 times)" and lists "cough, diarrhea". Pattern 3 is titled "Pattern 3 (Reported 2 times)" and lists "loss of smell, shortness of breath".

Most Common Symptom Patterns

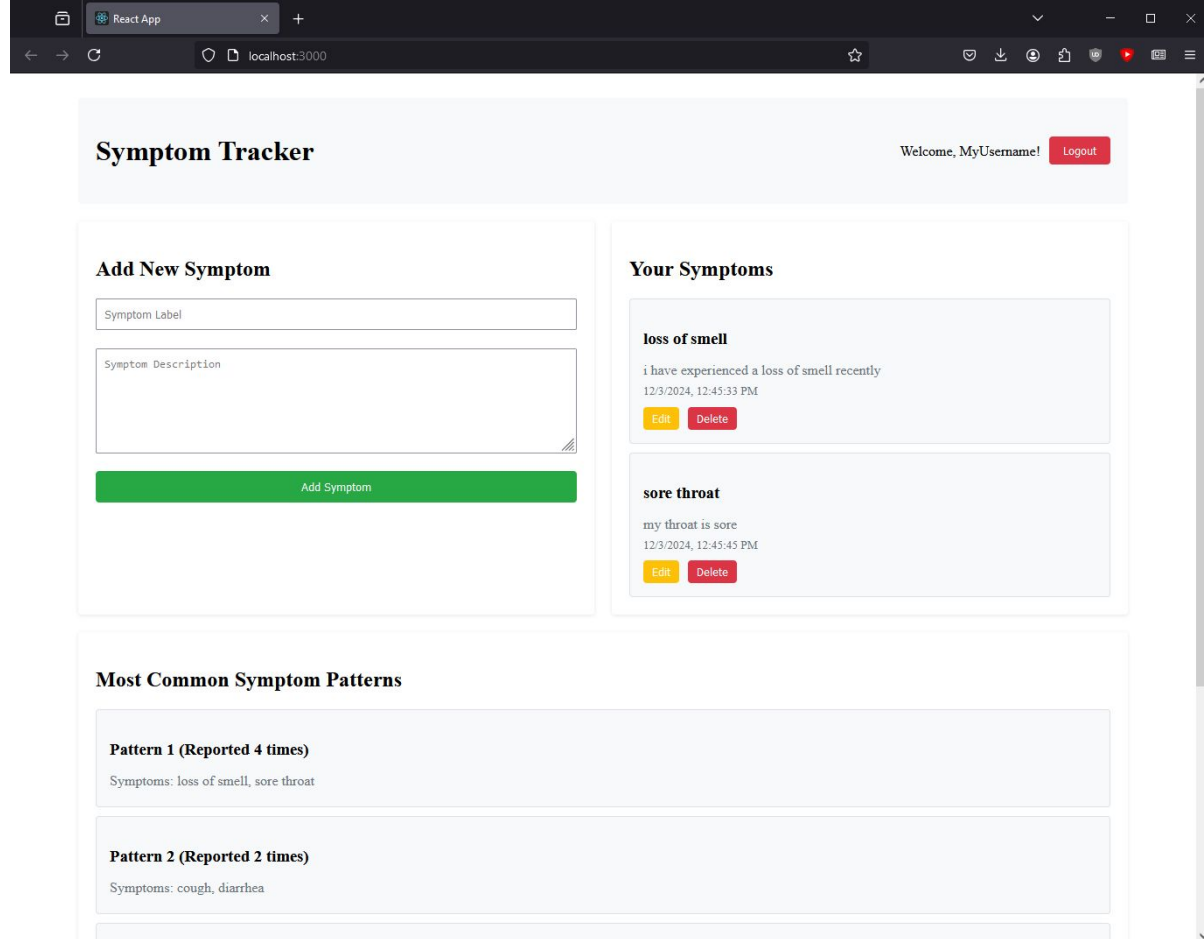

Pattern 1 (Reported 3 times)
Symptoms: loss of smell, sore throat

Pattern 2 (Reported 2 times)
Symptoms: cough, diarrhea

Pattern 3 (Reported 2 times)
Symptoms: loss of smell, shortness of breath

Symptom tracker dashboard

I entered symptoms identical to “Pattern 1” here and the common symptoms updated. (From 3 - > 4)

The screenshot shows a web browser window with a tab titled "React App" and the address bar displaying "localhost:3000". The dashboard has a light gray header with the title "Symptom Tracker" on the left and a user greeting "Welcome, MyUsername!" with a red "Logout" button on the right.

The main content area is divided into three sections:

- Add New Symptom:** A form with two input fields: "Symptom Label" and "Symptom Description". Below the fields is a green button labeled "Add Symptom".
- Your Symptoms:** A list of two symptoms, each in a light gray box:
 - loss of smell:** "i have experienced a loss of smell recently" with a timestamp "12/3/2024, 12:45:33 PM" and "Edit" and "Delete" buttons.
 - sore throat:** "my throat is sore" with a timestamp "12/3/2024, 12:45:45 PM" and "Edit" and "Delete" buttons.
- Most Common Symptom Patterns:** A list of two patterns, each in a light gray box:
 - Pattern 1 (Reported 4 times):** "Symptoms: loss of smell, sore throat".
 - Pattern 2 (Reported 2 times):** "Symptoms: cough, diarrhea".
